

THE WORLD CREATED THROUGH TECHNOLOGY, A WORLD CREATED FOR YOU.

The presence of a robust logistics-related infrastructure and an effective logistics management system facilitates seamless movement of goods from the point of origin to that of consumption, and aids an economy's movement to prosperity. The progress of logistics sector holds an immense value for Indian economy as well; as such advancement would increase exports, generate employment and give the country a significant place in the global supply chain.

"IF YOU WANT SOMETHING NEW, YOU HAVE TO
STOP DOING SOMETHING OLD. CONFORMITY TO
THE PRESENT IS INVISIBILITY TO THE FUTURE."

Leveraging innovation.

OUR WORLD, YOUR WAY.

think
LogiX.

Industries have optimized costs of manufacturing and marketing up to great extents. Machine learning, data analytics, and data mining is a relatively new solution, but industries are running out of fuel to find new solutions. Team Vision strongly believes that the best way towards **Cost Optimization is Process Optimization.**

WHY SHOULD YOU CHOOSE US?

Like most other industries, transportation and logistics (T&L) is currently confronting immense change; and like all change, this brings both risk and opportunity. New technology, new market entrants, new customer expectations, and new business models. There are many ways the sector could develop to meet these challenges, some evolutionary, others more revolutionary- think LogiX.

On an average, an accident during local transportation costs \$17000 (Rs. 12,00,000 approx.).

- Without real-time monitoring, the loss incurred due to the damage caused to the products is at least 150% the price of the products being shipped.
- The above scenarios, considered as the most basic reasons for losses for the exporting country and manufacturing company cause a delay of at least 12 hours in shipping time.
- We aim to bring down these losses to a minimal amount, less than 5% of the losses incurred due to the above scenarios taking place, and ensure timely delivery of the goods and services for improving the efficiency of your company.

“ INTELLIGENCE IS THE ABILITY TO ADAPT TO CHANGE. “

A PIONEERING PRODUCT THAT GUARANTEES TO PROVIDE TO OUR VALUED BUSINESS CUSTOMERS A NEWFANGLED PLATFORM TO VIEW CRITICAL INFORMATION THROUGH A NEOTERIC SENSING SYSTEM AND A NOVEL LOGISTIC ANALYSIS SUITE THROUGH DIGITAL TWIN.

THIS COLLABORATIVE MODEL COULD HELP BUSINESSES OVERCOME MANY OF THE CHALLENGES COMMONLY FACED IN DELIVERING EFFICIENT SERVICES TO THEIR CUSTOMERS AND THROUGH ANALYSIS CAN HELP OPTIMIZE COSTS FOR BETTER SALES AND BUSINESS MANAGEMENT.

As per the Economic Survey 2017-18, the Indian logistics sector provides livelihood to 22 million-plus people and improving the sector would facilitate a 10% decrease in indirect logistics cost, leading to a growth of 5-8% in exports. Further, the Survey estimates that the worth of Indian logistics market would be around US\$ 215 billion in next two years compared to about US\$ 160 billion currently. The boom in next couple of years is expected largely due to the implementation of Goods and Service Tax (GST).

TECHNOLOGIES USED

We believe that by properly using advanced technology, our product can be made to effectively help curd any present problems with regard to losses and hence have included concepts of Machine learning, AI(decision trees and random tree model) and IoT based Sensor systems coupled with AR/VR concepts to you the best we could offer.

BUSINESS MODELS/ ROI

LogiX will get its revenue by selling its product as a package valued at Rs.79,000. Additional services such as business and logistic consultant services are also valued on an annual subscription basis valued at Rs.45,000. **<WE NEED TO COME UP WITH A NICE BUSINESS MODEL DA DEI>**

**Better data.
Better analysis.
Better engagement.
KNOW MORE. GAIN MORE.**
